

Communiqué

31 August 2017

The Pharmacy Board of Australia (the Board) meets each month to consider and decide on any matters related to its regulatory function under the National Law¹ and within the National Registration and Accreditation Scheme (the National Scheme).

This communiqué aims to inform stakeholders of the work of the Board and matters regarding the National Scheme. Please forward it on to colleagues and employees who may be interested in its content.

Webinar for final year pharmacy students

Final year pharmacy students have been invited to participate in a Board webinar to be held on 6 September 2017, which will help them in the transition from student to provisional registration, and in understanding the Board's internship requirements.

The Board's Deputy Chair and practitioner member from Queensland Brett Simmonds will host the webinar, which will also be published on the Board's website approximately two weeks after the event for those unable to participate on the day. Any queries about the webinar can be sent to PharmBAwebinar@ahpra.gov.au.

National Boards approve policy for removing reprimands from the national register

A policy to ensure consistent removal of reprimands from the national register of practitioners has been approved by all National Boards.

Reprimands on a practitioner's registration can be imposed under the National Law by a performance or professional standards panel, professional standards committee (New South Wales), and a relevant tribunal or court.

The policy will ensure that reprimands are removed from the [national register](#) in a consistent and effective way. It also allows for the removal of reprimands imposed under previous legislation to be considered on an individual basis, consistent with removal powers under that legislation.

A reprimand imposed under the National Law will be removed from the national register on the publication end date set by the relevant panel, committee, court or tribunal. Where a panel or tribunal has not set a publication end date, or where the reprimand was imposed under previous legislation, the reprimand will be removed no earlier than five years from the date of initial publication.

This is subject to:

- the practitioner making an application for removal of the reprimand
- no relevant event having occurred in the five-year period of publication of the reprimand,
- and legal advice confirming the power to remove a reprimand imposed under previous legislation.

¹ The Health Practitioner Regulation National Law, as in force in each state and territory (the National Law).

A relevant event is any health, performance or conduct notification, action taken against the practitioner in relation to an adverse disclosure on renewal of registration, new information returned on a criminal history check or a confirmed breach of restrictions. It also includes when action has been taken against a practitioner regarding their conduct, health or performance. New notifications, irrespective of whether action was taken, will also be taken into account if an application for removal of a reprimand is received after the five-year period of publication.

The policy will take effect from 2 October 2017 and will be reviewed annually. An application form for removal of a reprimand from the national register will be published under [Common forms](#) on the AHPRA website.

COAG Health Council meeting communiqué: progressing amendments to the National Law

The federal and state and territory health ministers met in Brisbane on 4 August 2017 at the [COAG Health Council](#) to discuss a range of national health issues. The meeting was chaired by the Victorian Minister for Health, the Hon. Jill Hennessy. AHPRA CEO Martin Fletcher attended the Australian Health Workforce Ministerial Council (the Ministerial Council) meeting which brings together all health ministers throughout Australia to provide oversight for the work of the National Scheme. AHPRA and the National Boards provide a regular update to the Ministerial Council on our work.

The meeting included an agreement by health ministers to proceed with amendments to the National Law, to strengthen penalties for offences committed by people who hold themselves out to be a registered health practitioner, including those who use reserved professional titles or carry out restricted practices when not registered. Ministers also agreed to proceed with an amendment to introduce a custodial sentence with a maximum term of up to three years for these offences. These important reforms will be fast tracked to strengthen public protection under the National Law. Preparation will now begin on a draft amendment bill, with a view to being introduced to the Queensland Parliament in 2018.

Ministers also discussed mandatory reporting provisions for treating health practitioners, agreeing that protecting the public from harm is of paramount importance as is supporting practitioners to seek help and treatment for their health concerns, including for their mental health and wellbeing. It was agreed that the Australian Health Ministers' Advisory Council will recommend a nationally consistent approach to mandatory reporting exemptions for treating practitioners following a consultation process with consumer and practitioner groups. A proposal on mandatory reporting is expected to be considered at the November 2017 meeting of the COAG Health Council.

The Council produces a [communiqué](#) from its meeting which can be accessed on AHPRA's website.

Further information

The Board publishes a range of information for pharmacists on its website at www.pharmacyboard.gov.au. For more information about registration, notifications or other matters relevant to the National Scheme also refer to information published on www.ahpra.gov.au or send an [online enquiry form](#) or contact AHPRA on 1300 419 495.

Are your contact details up-to-date?

It is important that your contact details are up-to-date to receive renewal reminders from AHPRA and information from the Board. You can check your details via the Login icon at the top right of the AHPRA website. Email accounts need to be set to receive communications from AHPRA and the Board to avoid misdirection to an account junk box.

Follow AHPRA on social media

Connect with AHPRA on [Facebook](#), [Twitter](#) or [LinkedIn](#) to receive information about important topics for your profession and participate in the discussion.

William Kelly
Chair, Pharmacy Board of Australia
31 August 2017

[The Pharmacy Board of Australia](#) is the regulator of pharmacists in Australia and acts to protect the public by ensuring that suitably qualified and competent pharmacists are registered. The Board is responsible for developing registration standards, codes and guidelines for pharmacists and managing notifications (complaints) about pharmacists and pharmacy students. The Board does this through its powers under the Health Practitioner Regulation National Law, as in force in each state and territory, and the National Registration and Accreditation Scheme, supported by the Australian Health Practitioner Regulation Agency (AHPRA). The Board's work in regulating Australia's pharmacists in the public interest is underpinned by [regulatory principles](#), which encourage a responsive, risk-based approach to regulation.*

**Except in NSW and Qld which have co-regulatory arrangements.*
